Unit Aptitudes

Armoured Resilience	Each time an attack is allocated to this model, subtract 1 from the Damage characteristic of that attack.
Skies of Fury	If the Stormraven has moved in Hover Mode more than 6", passengers can still disembark, but they must do so as follows: Nominate any point over which the Stormraven moved that turn and deploy the squad as if it were Deep Striking onto that point. If the unit scatters, every disembarking model must immediately take a Dangerous Terrain test. If any of the models cannot be deployed, the entire unit is destroyed. Models that disembark using the Skies of Fury special rule cannot charge on the turn they do so.
Ceramite Plating	Melta weapons do not roll an extra D6 armour penetration when shooting a vehicle equipped with ceramite plating at half range or less.
Huge Transport Capacity (12 + 1 Dreadnought)	This model has a transport capacity of X Infantry models.
Firing Deck (0)	Each time this Transport shoots, select one weapon from up to X models embarked within it; this Transport counts as being equipped with those weapons as well.
Explosive Fatal Demise	When this model is destroyed, throw one D6 for each units within 6". On a 4+, the unit suffers D6 mortal wounds.
