Unit Aptitudes																	
The Destroyer Hive				While this model is leading a unit, each time a melee attack targets that unit, subtract 1 from the Hit roll. In addition, once per game, in any Assault phase, Typhus can unleash the Destroyer Hive instead of attacking. At the start of Typhus’ Initiative Step, place a large balst marker with the hole centred over Typhus (this does not scatter). All models (friend and foe) at least partially under the larger blast marker suffer a hit resolved at Strength 5 AP-4 D3 with the Ignores Cover special rule. Do not count Typhus when working out how many hits are caused. Wounds from this attack cannot be allocated to Typhus.													
The Eater Plague (Psychic)				In your Shooting phase, you can select one enemy unit within 18" of and visible to this Psyker and roll one D6: on a 1, this Psyker’s unit suffers D3 mortal wounds; on a 2-5, that enemy unit suffers D6 mortal wounds; on a 6, that enemy unit suffers D3+3 mortal wounds.													
Mark of Nurgle				Each time an attack is made against this unit, if the Strength characteristic of that attack is at least double the Toughness characteristic of this unit, subtract 1 from that attack’s wound roll.
