Unit Aptitudes																		
Master of Blades				While this model is leading a unit, each time a model in that unit makes a melee attack, add 1 to the Wound roll. Drazhar can only join friendly units of Incubi. Whilst Drazhar is part of an Incubi unit, all Incubus and Klaivex models in the unit gain 1 Attack.														
Vicious Execution				Once per battle, when this model’s unit is selected to fight, it can use this special rule. If it does, until the end of the phase, melee weapons equipped by this model have the Precision Strikes special rule, and each time an enemy Character model is destroyed by this model, you gain D3 Pain tokens. If that destroyed Character model was the enemy Warlord, you gain 3 Pain tokens instead.														
Murderous Assault				Drazhar gains a bonus Attack, made at the same Initiative step, each time he rolls a 6 To Wound in close combat. These bonus Attacks do not themselves generate any further bonus Attacks.
